

Estimated Fiscal Impact of Bill # SB 195 Date 2/27/2009Short Title Public Employee Defined Contribution AmendmentsContact Von Hortin Title Audit/Finance SpecialistAgency: State Office of Education Phone 801 538-7670**Short Form**

Use only when there is no appropriation needed for state agencies, and no fiscal impact on state revenues, local governments, businesses, or individuals.

If the bill looks like it should have a fiscal note, explain why it does not. For example, a bill might put into code something that is already current practice.

- ☒ State agencies will not require an appropriation to implement the bill.
☐ There is no fiscal impact on local governments.
☒ There is no fiscal impact on businesses
☐ There is no fiscal impact on individuals.
☒ The bill will not affect revenues.

Explain why this bill has no fiscal impact.

This bill would have no fiscal impact but could save the state some money if there were a tie between amounts paid by school districts and funding. Since the SS & Retirement line items are not tied to actual expense it may not impact any savings.

A. What parts of the bill cause fiscal impact?

Cite specific sections or line numbers.

B. Which program gets the appropriation?

(Approp. Unit Code)

(To appropriate to an additional program use an additional form.) This is ____ of ____.

C. Work Notes: Assumptions, calculations & what are we buying?

Assume that a legislator calls you in to explain how you came up with your fiscal impact and these are the only notes you get to take with you.

List all costs. Identify one-time and ongoing costs. Detail FTE impacts.

Do not say, "\$50,000 in Current Expense." Be very specific about what \$50,000 will buy.

Attachments encouraged.

The figures on the calculations sheet use only amounts from school districts. There are a few Charter schools who participate in the state retirement system but we could not gather the data in time to submit the fiscal note in a timely manner. Also we cannot estimate how many of the school district employees have been in continuous service since converting from the contributory system. The assumption here is that these two unrelated items would potentially off-set each other.

Since there is no tie between the events of this bill and the school districts and their revenues from the state, these savings might not occur or might not be the entire amount on the calculations sheet.
